

ALTOS® Loose Tube Dielectric Armor Outdoor Cable LT 2.0 HDPE 6x12 E9 SMF-28e+® ITU G652.D

Part Number:
072EPG-T3122P20

Corning glass-yarn armored loose tube cables are designed for outdoor use for campus, city and intercity backbones in duct installations.

The loose -tube cable construction, by isolating the fibres from installations and environmental rigors, provides stable and highly reliable transmission parameters. The 2.0 mm buffer tubes and fibers in each tube are color -coded for quick and easy identification.

The SZ -stranded construction further reduces installation and environmental influences on the transmission parameters and allows mid -span access.

These slim and lightweight cables are designed with a 1.1mm HDPE outer jacket for easy installation in conduits and ducts.

Features and Benefits

Laminated glass yarns

Improved rodent resistance

All-dielectric construction

Requires no grounding or bonding

UV and microbe resistant

Can be installed in ducts

Waterblocking technology

OSP (outdoor) applications

Fibres/buffer tubes colour coded to Telcordia-Bellcore

Easy identification of the individual tubes and fibres

Dry cable core by means of water-swellable tape and elements

Allows efficient and craft-friendly cable preparation in outdoor or indoor/outdoor applications
