

Cat 6A Unscreened LSZH Patch Cords

Description

Category 6A unscreened patch cord range exceeds the transmission line performance requirements of IEC and TIA for CLASS EA/Category 6_A systems. The patch cords are designed for mechanical and electrical reliability, using quality materials and processes, to provide a patch cord solution which delivers a consistent high level of systems performance whilst incorporating design features that allow a “one style fits all” cord application. The low profile moulded boot and snag free latching allows the cords to be deployed within even the most densely populated network installations deploying the latest blade server technology.
