

Micro Sticks

Micro fibre sticks are the ideal consumable for cleaning 1.25mm bulkheads after installation. They can be used to clean the end faces of installed connectors, from inside the enclosure. Cleaning is achieved by inserting the micro fibre tip inside the adapter's aperture and twisting once. The micro fibre material allows the user to clean installed connector end faces without scratching the surface, and ensures a perfect clean first time.

FEATURES

- Works with 1.25mm adapters: LC, MU
- Material: Micro fibre, antistatic
- Size: 10mm x 4mm (body) 13mm x 2mm (head)
