

L-Series Adapter Plate

Description

The versatile L-Series Adapter Plate can be used in the complete range of L-Series housings, panels, and wall boxes and forms the heart of the solution. The plates are interchangeable allowing support for legacy connections using older connector types whilst supporting migration to small form factor connectors (such as LC) within the same housing. A wide range of connectivity types offers a flexible solution to the user and are easily changed using snap pin mountings. The L-Series Adapter Plate has many applications including data centers, telecommunication networks, security networks, demarcation points, and more.

The AFL Hyperscale L-Series is compatible with the industry-standard LGX format.

Features and Benefits

- For use in all compatible L-Series housings, panels, and wall boxes
- Interchangeable for a wide range of products
- Ranges from low- to high-density fiber counts
- Supplied with adapters pre-loaded
- Suitable for SC, LC, ST, FC & E2000 adapters
- Easy to install with either fastening pips or screw-in
- Robust steel design

Applications

- Data center infrastructure
- Storage Area Networks (SANs)
- Fiber channel

Specifications

Technical Specification	
Height	30mm
Width	31mm
Length	129mm
Net weight	100g
Packed weight	150g
Packaged dimensions	60mm (H) X 45mm (W) X 140mm (L)
Material sheet	Steel
Material thickness	1.2mm
Color	Black
Material coating	Electro Static Powder Coating
Operating temperature	-40°C to + 60°C
Materials compliant to	RoHS, Reach, SVHC
Designed in accordance with	TIA/EIA 568.C, ISO/IEC 11801, EN 50173, IEC 60304, IEC 61754, EN 297-1
